

Secret Tips

These tips are only if you get stuck on Freddie Trims a Tree and cannot beat it, or cannot figure out how to see all the endings.

- Time does not pass on its own. Time only passes when you get to a new level.
- There is no way to wake the dog up. He will wake up later in the game.
- You must use all the balls to finish decorating the tree.
- There are three levels in the game.
- Try chopping down different trees. Each tree will have a different result. Some trees may not be chopped down if you already have one in the living room.
- It takes a stack of three items to put the highest ball up on the tree.
- Definitely read the help file. There is a hint much better than any of these hidden somewhere in it.
